PROFILE

Final-year BS Computer Science student with hands-on experience in Python, Java, and C. Built end-to-end ML pipelines, AI agents, and full-stack web applications. OCI AI Foundations certified. Passionate about AI/ML Engineering. Seeking a Software Engineer Intern role to apply skills in real-world projects.

EDUCATION

BS Computer Science

Iqra University, Karachi | 2023 – 2027 (Expected)

Diploma in System Management

Aptech Learning | 2021 – 2022

PROJECTS

Used Car Price Predictor | Python · scikit-learn · Streamlit

Built a machine learning web app to predict used car resale prices. Trained a Linear Regression model achieving R^2 of 0.89 with no overfitting. Deployed as a live interactive web app using Streamlit.

RAG-Based AI Agent | n8n · OpenAI · Pinecone

Built an AI agent using RAG architecture to answer questions from uploaded PDF documents. Integrated Pinecone vector database for semantic search and OpenAI for context-aware response generation, automated via n8n workflows.

University Management System | Python · FastAPI · SQL Server · Power BI

Built a full-stack university management web app with role-based login and CRUD operations. Integrated Power BI dashboard connected to SQL Server for real-time student and course data visualization.

CERTIFICATIONS

Oracle Cloud Infrastructure (OCI) – AI Foundations

SKILLS

- **Programming Languages:** Python, Java, C, C++, HTML, CSS
- **AI / ML:** scikit-learn, pandas, NumPy, OpenAI API, LangChain, n8n
- **Databases:** SQL Server, PostgreSQL
- **Tools & Technologies:** Git, GitHub, Power BI, Fast API, Microsoft Azure, Jupyter Notebook
- **Concepts:** OOP, Data Structures & Algorithms, DBMS, SDLC, Agile

LANGUAGE

English, Urdu
